

# Project 52

## Disaster Preparedness Workshop

***Are you, your family, and your church or community ready for a catastrophic hurricane?***

Approximately 350,000 homes will be destroyed or significantly damaged and an estimated 650,000 people will seek out shelter post landfall\*. ***What will you do if you are one of them?***

It is estimated that the island will be without a power grid for at least 30-45 days\*. ***Can you survive that long without running water and grocery shopping?***

Join us for this 2-hour workshop and learn how to prepare for a disaster. Information will also be provided on how to get involved with preparing your church/organization and community.

*\* Based on a 2008 FEMA-funded study*
